

Welcome to Narrative. Get started at:

**[start.getnarrative.com](https://start.getnarrative.com)**

Don't struggle to capture every moment

Let the Narrative Clip be with you naturally. It doesn't need constant attention.

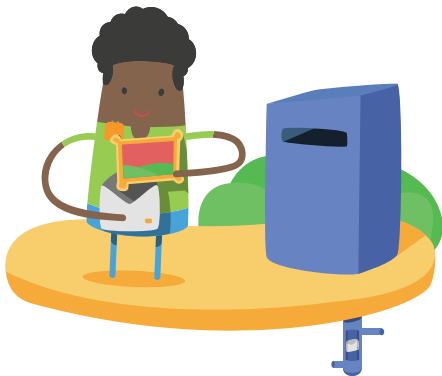

Make your first day with Narrative Clip memorable

Get out there, meet the people you care about  
and capture your first moments.

### Experiment with your Narrative Clip

Place it in a window and let it capture the clouds moving, or set it on your desk and capture your day.

### Share your favorite moments

Share your favourite moments with others. You're an example to those around you; use Narrative to inspire them.

Let Narrative change your life for the better

Get outside more, try new things and spend time with the people you love.

Wear it the way that fits you

The Narrative Clip is smart enough to rotate  
your photos automatically.

## Get to know your Narrative Clip

LED lights

USB Port

Camera Lens

Metal Clip

## The tap feature

Tap your camera twice to take a photo. This photo will be marked as a favorite in the Narrative App. Performing this action also shows you the battery status.

## Understanding the camera

The Narrative Clip will communicate with you through it's LED's.  
Here is a guide on what it's trying to tell you.

Battery at 25%

Battery at 50%

Battery at 75%

Battery at 100%

### **One LED light blinking**

Your camera is almost full or without battery.  
Please connect it to your computer to charge and unload your pictures.

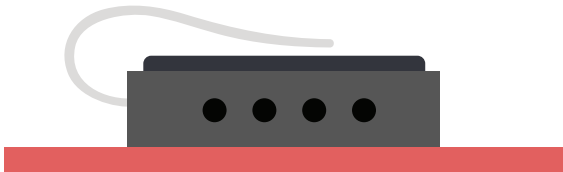

### **Two LED lights blinking**

Your camera needs some attention, please connect it to your  
computer for more information.

## Turning of the camera

Turn of the camera by placing it face down on a table or put it in a dark place like a pocket or a purse.
